Atmospheric, Terrestrial and Aquatic Linkages***

CHESAPEAKE POTOMAC REGIONAL CHAPTER MEETING – April 19, 2010

You are invited to attend the SETAC-Chesapeake/Potomac Regional Chapter (SETAC-CPRC) meeting to be held at Towson University in Towson, MD. The 2010 Spring Meeting will be held on April 19th in the University Union. Towson University is located conveniently just off the North side of the Baltimore Beltway.

We anticipate presentations on all aspects of environmental chemistry, atmospheric transport, sediment toxicology, aquatic biology, ecological risk, emerging contaminants, soil remediation, and others. Papers that specifically address these issues in the context of the urban landscapes that dominate our region are especially encouraged, but not required. Posters are an important component of the meeting and we will offer them in between presentations to maximize your opportunity to see and experience all that the meeting has to offer.

The program committee is pleased to offer you this venue, and everyone will be getting a great registration value: \$25/person (\$15/student). Registration includes all presentations, posters, discussion, break service, lunch, and parking.

The meeting will be a great opportunity to interact with colleagues throughout the region and is not one to be missed. We look forward to seeing you there!

Call for Papers & Posters: DUE APRIL 2nd, 2010

The organizing committee of the 2010 CPRC SETAC meeting welcomes submission of platform paper or poster abstracts. All abstracts must be submitted via e-mail to Judi Durda (jdurda@integral-corp.com and spark@integral-corp.com). Abstracts over 300 words will be edited without author's review. Please note in your submission if you wish to present as a platform paper or a poster.

You will be notified by **April 5th**, if your submission is accepted for presentation at the meeting.

Accepted platform presentations must be submitted in electronic format to the above e-mail addresses on or before **April 16, 2010**. Microsoft Power Point will be the presentation format used at the conference. Accepted posters should be mountable using push pins.
